Family Project—Nocturnal Habitat

An annual summer activity is the at-home project for families. This year families can build a mini habitat at home using the Nocturnals Guide which will be available at the library starting June 1. Families are encouraged to use recycled materials for the project. Habitats can be dropped off at the library from June 15 - July 15 where they will be displayed across the book shelves. Each participant will receive a certificate, stickers, book marks and a book. Participants will be able to pick up their habitats starting July 20.
